

Services

Story Medical Senior Care offers residents a wide range of medical services, including:

- Pharmacy
- Radiology
- CT & MRI Scanning
- Restorative Care
- Cardiac & Vascular Testing
- Laboratory

In addition, durable medical equipment is available on request.

Residents can also utilize Story County Medical Center's outpatient services for a variety of medical specialties, including:

- Podiatry
- Oncology
- Cardiology
- Orthopedics
- Ophthalmology
- Dermatology
- Physical, Occupational & Speech Therapy
- Respiratory Therapy

Family members and friends are welcome to visit and dine with residents whenever they would like, especially during holidays and birthdays.

SENIOR CARE

**Care.
Comfort.
Companionship.**

Not all our residents are of the two-legged variety. Senior Care has numerous pets to provide love and companionship, so "pet lovers" will feel more at home.

Story Medical Senior Care is dedicated to providing compassionate care and support to senior adults who need assistance to fully enjoy all that life has to offer.

Care

Our 80-bed long-term care facility is well respected throughout Story County for its quality of care. We provide our residents 24-hour attention in a secure, comforting environment that meets personal needs while offering a lifestyle that encourages independence, individual choice and group activity.

All of our residents are cared for by staff who are licensed or certified by the State of Iowa. In addition to providing the clinical care required, they provide an emotional connection that helps residents become part of the Story Medical family. Physicians visit residents routinely and on an as-needed basis, and an emergency physician is on call at all times. Medical care provided to residents is family-based, and backed by all the resources of Story County Medical Center.

Story Medical Senior Care welcomes visitors and invites you to tour our facility.

To learn more about Story Medical Senior Care, please contact the Medical Social Worker at 515.382.7014.

Comfort

Story Medical Senior Care provides an atmosphere of safety and comfort, with all the amenities one would expect from a first-class facility. We offer two, newly remodeled dining/activities areas, a chapel, a covered outdoor garden patio, as well as a relaxing conversation area on each floor. Guests are welcome to use any area of the facility while visiting with residents.

In addition to all the comforts of home, Senior Care offers a full range of domestic services, including nutritious meals, mid-morning and afternoon snacks, vending machines, housekeeping, beautician/barber services, laundry services and social services. Cable TV is available at no charge, and private rooms are offered, subject to availability.

Senior Care also offers unique dining options, including "Open Dine," a buffet-style dining experience that allows residents to eat in the dining room anytime during the established hours, rather than at set meal times. Available for all three meals, it provides residents with a variety of food options. Senior Care residents may also dine in the Medical Center's restaurant-style cafeteria, enjoying the company of our employees and other visitors or guests.

Companionship

Social interaction is an important part of senior life and is encouraged for our residents. We offer a comprehensive daily activities program under the direction of a Certified Therapeutic Recreational Specialist. Musical programs, Red Hat Society meetings, devotions, gardening and cooking classes are just a few of the activities offered each month.

Our wheelchair-accessible van is utilized for day trips, scenic tours, and other outings and activities. Outings are designed to accommodate those residents in wheelchairs, walkers or with dementia.

We also have group and individual exercise programs for the benefit of our residents. Exercise equipment is available for residents to use with nursing supervision.
