# Supporting Story County Medical Center

Delivering Healthcare Excellence  
One Person. One Experience. One Story at a Time.

## Giving Enhances Services

"We've worked with Story County Occupational Health for several years and have been very pleased with our experiences. The entire staff is easy to work with and make sure that our employees are seen in a timely manner and are very flexible with appointment times. Dr. Sherman Jew has made visits to the factory to watch our employees working so he understands and can relate to employees when discussing their job duties. Since the beginning of the COVID-19 pandemic we've continued to receive consistent and reliable care for our employees both virtually and in person."

Kay Lampe Hannasch  
Lennox Senior Health & Safety Manager

# Working Together for a Healthier Story County and Central Iowa

**At Story County Medical Center we believe in a shared responsibility when it comes to improving the health and well-being of our Story County and Central Iowa communities. Story County Medical Center has a long tradition of caring for you, your friends and loved ones, your employees and your valued customers.**

Generous businesses and corporations have been vital in enabling Story County Medical Center to meet the diverse healthcare needs of those who live in Story County and beyond. Charitable giving, from organizations large and small representing every sector, helps Story County Medical Center make a difference in the lives of individuals and families when and where they need it most.

We invite you to join us as a partner in ensuring access to convenient, high-quality care close to home is available to all who need it. In doing so, you have the opportunity to show the community you care about them, while providing comfort to patients seeking care.

## Story Medical Endowment Foundation Funding Priorities

- **Support for critical programs like mental health services that need ongoing funding to serve patients and families in our community.**
- **Support advocacy and outreach programs that contribute to a healthier Story County.**
- **Provide funding for priority construction projects and equipment/technology needs.**
- **Provide funding to educate our current and future generations of nurses, staff and physicians.**

To learn more about joining our Corporate Honor Roll, please contact Crystal Davis, Foundation Coordinator, at [cdavis@storymedical.org](mailto:cdavis@storymedical.org) or (515) 382-7728.

## Giving Enhances Care

"I am very grateful to have received the Story County Medical Center Foundation Scholarship. The scholarship helped with my tuition costs at DMACC where I am studying to obtain my RN. I have a passion for taking care of others and have loved my time working at Story County Senior Care."

Bailey Crain, CNA, Story Medical Senior Care

## Giving Fosters a Healthy Future

"My husband Collin and I made the decision to give to the capital campaign because we care about our community. We live in Ames with our one year old daughter. I grew up in Colo and my husband grew up in rural Kossuth County and later attended Iowa State University and never left Story County. We both enjoy living and working in Story County and feel blessed to be raising our family here. Being able to give to Story County Medical Center helps support a healthy lifestyle for us and those we care about. I work as a Speech Language Pathologist for 21st Century Rehab who partners with Story County Medical Center to provide therapy services. By donating a portion of our family's income we are supporting the ability for Story County Medical Center to continue to bring top notch providers and services to those who live in our community. I love knowing that our donation is supporting a choice in healthcare for my patients, family, friends, and community members."

Kelci Fett, Ames Resident

## Giving Supports Healthy Communities

"All Nevada High and Nevada Middle School athletes require a physical before they can compete in high school athletics. The fact that Story Medical offers this service for free is invaluable. Story Medical is the definition of a community-first organization."

Dustin Smith, Activities Director, Nevada High School
